

## MID-WEEK ENRICHMENT

Our mid-week enrichment programs offer a variety of activity choices for your preschool-ages student. For children that are part of our preschool program, we will escort each child to and from their classroom. Reading and puzzle activities will be provided while a child is waiting for an enrichment class/pm preschool class to begin. Our programs are open to children that are not part of our preschool classes too!

**Music & More** Your student will learn fun songs while also getting more enrichment in numbers, colors, name recognition, sharing, fine motor skills, motor movement and more! Each week will involve singing, dancing, and instrument playing while learning about rhythm too. Max 10/min 5 per class.

**Social Groups** (w/social worker) Social Skills are the foundation for getting along with others. Many of our children today have social difficulties due to spectrum disorders, auditory processing and sensory modulation differences. A lack of social skills can lead to behavioral difficulties in school, inattentiveness, peer rejection and emotional difficulties. These Social Groups will focus on over 20 age-appropriate basic social skills. Kids Connection teacher/social worker (with program consultation by an occupational therapist) will facilitate the class.
