PROGRAM DESCRIPTIONS**
Large muscle activities in our gym.

Kids Connection, Inc. offers a wide range of classes to accommodate all preschool ages. Please respect our age cutoff, as it is important for each student to develop not only cognitively, but emotionally too. Interaction with their peers and non-family members is a very important aspect in the development process.

Play is also very important in development. Kids Connection, Inc. takes pride in offering learning activities that are incorporated in a play setting. We use limited work sheets while achieving Early Childhood Learning Standards by incorporating various areas of learning (science, math, literacy, motor skill development, social understanding and more).

Kids Connection, Inc. has a staff of well-educated adults. For most of us, our experience as parents gives us the emotional understanding to work with our students and our parents and our education gives us knowledge in appropriate teaching techniques for varied learning abilities.

Thank you for considering Kids Connection, Inc. to assist in the development of your young student.
