

Thank you for reviewing our web site information! I am also a mother of two and understand the importance of finding a quality preschool. My staff is comprised of very educated women that primarily work part time, as they have families of their own. The team of teachers at Kids Connection is excited about the opportunity to educate your child. Please know that we are available to answer any questions via our email, calling or a tour.

–Renee Gust, Owner/Director

CONNECTIONS (3s & 4s) Year two of this program serves children throughout the community as well as children who attend local school districts early childhood education programs with diagnosed ASD or PDD. This class will encourage inclusion with typical students while engaging in our weekly classroom themes. Previous classroom experience and IEP required for a successful experience. Maximum class size is 16, with 6 slots available for ASD/PDD students; 2.5 hours. Preschool teachers; speech-language pathologist and music therapist all part of this classroom experience.

This is a new age of challenges with students. It is a difficult time for families and school districts alike to accommodate all our special learners. At Kids Connection our goal has always been and will continue to be the inclusion of all children to the best of our ability. The most important aspect of this class is the involvement of typical children. Throughout their school years our children will be exposed to other students that have various challenges and sharing their communication and social skills is the best education our atypical children can have.

This class has proven to be a huge success and we appreciate the collaboration with Community Therapy Services therapists, staff and families.
