

Enriching Lives Through Pediatric Occupational Therapy

Welcome to OT Outcomes

Welcome to the web site of OT Outcomes, a pediatric occupational therapy practice in St. Charles, Illinois. Our mission is to implement interventions that are family centered and have a profound effect on the life of a child. We closely follow new therapy intervention developments in the field and incorporate them into our practice when appropriate.

In addition to providing children occupational therapy sessions in our SI clinic or at their homes, we also provide families with carryover plans that are individualized to home routines, for parent ease and child success!

Our staff is dedicated to each child we meet, assisting each child in realizing his or her greatest developmental outcomes.

This web site has been created to serve as an additional resource for the families we work with, as well as a resource for other professionals.

About Marget Wincent

Marget Wincent, a parent of two children with unique sensory needs, has been a pediatric therapist for over 20 years. She has practiced in three states and abroad. She has participated in the development and implementation of therapy programs for children in home, school and clinic settings. Following SIPT certification in 1989, Ms. Wincent added Therapeutic Listening programs to her tool box in 1999.
